

APP TTM

The direct printer modules
for print-on-packaging

051790

The powerful solution for automation

- ✓ Simple and direct integration into thermal forming packaging machines and all vertical and horizontal filling machines
- ✓ Electronically controlled – makes it simple to design and change the layout
- ✓ Easy and quick print design by touch-screen
- ✓ Can easily be moved to another production line (with a minimum of effort)
- ✓ Two versions available: 2" and 5" print head
